Serran Kelvin Lo was baptized at Easter 2016. Both his parents are accountants by profession and he has been one for eight years. He was interested in "Forensic Accountancy" work, which covers three aspects of work:-

- i. "Quantum" assessment – "quantum" is the "damage claim" assessed by accountant assigned to this work.
- ii. "Compliance" is to prevent money laundry by various organizations. This also covers work on Corruption and Mitigation.
- iii. "Fraud Investigation" – the recent case of a whistle-blower on a laboratory in the USA was cited as an example.

Serran Kelvin Lo also talked about how he found peace in religion.

This interesting talk was followed by sharing by Serran Michael Lau.
